

## Plotting and Data viz with R

### Reading in data

```
library(dplyr)
library(tidyverse)

tblr <- read.csv("data.csv", sep=",")
```

### tidyverse

#### Filter data

#### Add a new column with mutate

```
NewTbl <- tblr %>% mutate(BinKb = Start / 1000)

head(NewTbl)
```

#### Histogram

#### Heatmap

#### Treeview
